Highlights

Passive noise isolation
The perfect, snug fit inside your ear stops unwanted background noise detracting from the pure pleasure of your favorite music. This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

Neodymium magnets
Neodynium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

Comfort fit
This headphone is designed around the shape of your ear for extra comfort and more enjoyment during longer periods of listening.

Asymmetric cabling system
This simple yet highly effective solution to cable tangling works effectivly by enabling you to hang the cable behind your neck instead of under your chin.

1.2m cable
The ideal cable length to give you the freedom to put your audio device where you want.

For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.
